also be purchased for real money. If you don't want to use this feature, please turn off in-app purchases in your device settings. You also need to connect to the network. Do you have what it takes to become king? 6 January 2021 Version 10.1.0 What's new.1. New event: New Year's Eve celebrations. New event: Covenant of the Kingdom.3. New download screen. In many ways it's great, but the overhead to get the team in is excessive and not convenient. Significant improvements in this aspect are possible. Now what most gaming companies don't like, they're too greedy not to even give a playing field to all players. Idiot with a lot of money can win this game, but someone with skill and without money can not. Some actions go beyond if you can't afford to spend a lot of money on the game. You'll probably lose 60% or more skilled players in the game and keep dummy idiots who spend megabucks, so it's humiliating the game just so you can make a big profit I wish it was easier to protect my lock, so I can use my time playing elimination goblins and cyclops rather than having to constantly rebuild my army at huge expense by being attacked by other players while not online. In addition to this, I've been upgrading my Dragon Guardian Skill with Guardian Power, and attacking skill with Attack Power, since I first started playing the game, but Chapter 1 Final Snippet never updated as I updated the skills so that it still shows me only completed the 577 tasks required in this section when in fact I completed them. I suspect it must be a glitch in my game. I wrote mods about it earlier but got no response. I would like this to be fixed. I would like to be able to place some type of protection over my lock for a few weeks while I'm away and offline. Overall it is a very good game. Hello Lord, we are aware of the fact that real-time multiplayer is sometimes a challenge. We also believe that constructive feedback is a great way to share your concerns about the game. While we encourage you to continually improve your strategy, you can ask for some advice from support. Team KoA. There are always problems with the game, do not buy any packages, as they intentionally pick up items like jewelry or equipment that you paid for and refuse to refund it or compensate for their removal. Shields can accidentally expire in 4 hours instead of 8, 12 and 24 hours that they say and you can lose everything as troops that take in a few months to return. They stopped doing events that give away a lot of resources so players can't align very far or keep playing without spending at least \$200 a week. However, the conversation with support about the problem after them say that they will return my things that last for 7 weeks, still continue to ask the same questions I answered, then they do nothing for a few days until I start hassling them. Fix all those mistakes that you do! Hello Lord, we understand that real-time multiplayer can be challenging and we appreciate you don't have time to let us know about your problems. We remind you that none of these acts are approved by our team, and we are constantly concerned about ensuring a balanced gaming environment. Your suggestions for improvement are also Team KoA.
